CURRICULUM VITAE

NGUYEN VAN CHIEN

Proposed position

Project Manager

Present position

Senior Process Engineer cum Senior Project Engineer

Personal data

Full name	Nguyen Van Chien
DOB	November 17th, 1992
Current address	An Phu, Hai Phong, Vietnam
Phone	(+84) 0375 252 645 / (+84) 0888014 291
Email	chiennvbk@gmail.com

Education

2010 - 2015	Hanoi University of Science and Technology Petrochemical Engineering/Chemical Engineering

Key qualifications

- Project Management Professional® certification by PMI (PMP No.: 4159343).
- Having extensive experience of process, continuous improvement, and design engineering in diverse industries.
- Starting as a chemical engineer with Green Environment Production and Trade Services Co., LTD focusing on the waste treatment/renewable energy projects.
- Joining Masan Tungsten LLC as a process & research engineer with main responsibilities in technical assessment, process optimization, process calculation, development project, site survey, pilot scale/plant trial, commissioning for tungsten production facilities in Vietnam & Germany.
- Joining Intes as a process engineer and project coordinator having good knowledge in Engineering Management in EPCm and EPC projects in Vietnam & Holland.
- In Process Engineering: process design basis, inherent safety design basis, relief & flare systems, fire/ explosion protection systems, hazardous area classifications, firefighting.
- Having knowledge about common Hazard Identification and Risk Assessment techniques such as HAZID, HAZOP, SIL, Risk Matrix.
- Strong skills in design simulation software such as HYSYS, Pipeflow, Sketchup and AutoCAD.
- Good at speaking, writing/ oral communication skill in English and proficiency with Microsoft office.
- Solid knowledge of Vietnamese regulations & international engineering codes & standards especially in oil & gas industry.
- Social skills to interact with team members ensure projects are ready prior to deadlines.
- Strong personal management skills, planning, dedication, organization, open-mindedness, communication, and overall team player.

CURRICULUM VITAE

NGUYEN VAN CHIEN

Professional experience

10/2023 – Present **Mincore Pty Ltd.**

https://mincore.com.au/

10/2023 – 07/2024: Process Engineer/Study Manager

07/2024 – Present: Technical Manager

Job description:

- Process consultant for Feasibility Study and Basic Design in Vietnam and Australia.
- Hydraulic calculation & checking.
- High-level equipment.
- Process Description.
- Prepare H&M balance, Equipment list, Line list, Line sizing, Tank & Vessel design.
- PDC, PFD, P&ID preparation and checking.
- Capex, Opex estimation.
- Financial Analysis.
- Location study.
- Coordinate Client and Supplier.
- Coordination, quality and schedule control for engineering work.
- Gauge progress of various projects.
- Propose budgets for various projects in Vietnam and Australia.
- Executive about the state of the project, ensuring projects stay on track and on budget, and adjusting if necessary to meet new requirements.

Create reports to give updates on projects.

Projects directly involved:

- **1008 Broula King – Pre-feasibility study**
- **1150 Scoping study Atlantic Lithium**
- **1295 NPMC Bi cake gold**
- **1198 Pyrolysis tyre – CAPEX estimation**
- **1249 Hillgrove Restart**
- **1234 Kumul Gold Refinery Scoping Study**
- **1312 Kumul Gold Refinery Technology Study**
- **1421 Kumul Gold Refinery Class 2**
- **1339 Victory Metals – Rare earths scoping study**
- **1349 Simberi Piperack**
- **1338 AIE Heap Leach Facility**
- **1451 Tan Phat Nickel**
- **1275 Selenium Processing Plant - EPCm**

1008 Broula King – Pre-feasibility study, Australia

Project Manager

- Carry out the pre-feasibility study for the demonstration plant intends to operate a 40,000 tonnes per annum of Sunny Corner Slag and Fosterville tails to recovery Au, Ag, Fe, Pb, Cu, Zn, Sb, As.
- Study Management.
- Client, Internal Team and Supplier Coordination.
- Capex, Opex cost for demonstration plant.
- Pre-feasibility study report.

1150 Scoping study Atlantic Lithium, Ghana

Process Engineer & Study Manager

- Carry out the scoping study for the downstream processing of Lithium Concentrate (SC5.5-6) to either Lithium Carbonate or Lithium Sulphate.
- Study Management.
- Client, Internal Team and Supplier Coordination.
- Capex, Opex costs for location options, size and scale up plan.
- Risk assessment.
- Location options trade off study.
- Financial Analysis.
- Study report.

1295 NPMC Bi cake gold, NuiPhao Mining Company, Vietnam

Process Engineer & Study Manager

- Process consultant for test work extract gold from Bi.
- Dashboard summary.
- Technology options selection.

1198 Pyrolysis tyre – CAPEX estimation

Process Engineer & Study Manager

- PFD, P&ID preparation and checking.
- Estimate CAPEX for Pyrolysis plant.
- Financial Analysis.

1249 Hillgrove Restart, Australia

Process Engineer

- Assist to Project Manager.
- PFD, P&ID preparation and checking.
- Tailings pump calculation and checking.

1234 Kumul Gold Refinery Scoping Study, Papua New Guinea

Process Engineer & Study Manager

- Estimate CAPEX/OPEX for Gold refinery plant with capacity 800,000 oz (22.7 tpa).

1312 Kumul Gold Refinery Technology Study, Papua New Guinea

Process Engineer & Study Manager

- Assist to Project Manager.
- Dashboard summary.
- Technologies Comparison and Selection.

1421 Kumul Gold Refinery Class 2 – Feasibility Study, Papua New Guinea

Project Manager

- Carry out the feasibility study for the gold refinery with capacity 3,000,000 Oz (85 tpa)
- Project Management.
- Location selection.
- Cost and budget control.
- Client, Internal Team and Supplier Coordination.
- Assign tasks to engineers.

1339 Victory Metals – Rare earths scoping study, Australia

Process Engineer & Project Coordinator

- Carry out the scoping study for rare earth processing plant with 8 Mtpa ROM and annual product (TREO) 1,1913 tpa.
- Assist to Project Manager.
- Project coordinator.
- Process consultant for Scoping Study and Basic Design.
- BFD, PFD preparation and checking.
- Mass balance preparation and checking.
- Review and check process engineering.
- Capex, Opex costs for technology options, size and scale up plan.
- Scoping study report.

1349 Simberi Piperack – Structural Shop detailing, Australia

Project Manager

- Project Management.
- Cost estimate.
- Client, Internal Team and Supplier Coordination.

1338 AIE Heap Leach Facility, Armenia

Process Engineer & Project Coordinator

- Assist to Project Manager.
- Cost estimate.
- Project coordinator.

1451 Tan Phat Nickel, Vietnam

Process Engineer & Project Coordinator

- Process consultant for Surge tank project.
- Cost estimate.
- Project coordinator.

1275 Selenium Processing Plant – EPCm, Thailand

Project Manager

- Carry out the EPCm for selenium processing plant with capacity 500 tpa Selenium Selenite.
- Project Management.
- Assign tasks to engineers.
- Coordinate with client to get and clarify information.
- Communicate and clarify with Vendor about quotation, schedule, and technical points.
- Cost and budget control.

04/2022 – 10/2023 **IntES Vienam Co., Ltd.**

https://int-es.com/

Process Engineer

Job description:

- Prepare Basic Engineering Design Data.
- Process consultant for Feasibility Study and Basic Design, FEED.
- Prepare H&M balance, Equipment list, Line list, Line sizing, Tank & Vessel design.
- PFD, UFD, P&ID preparation and checking.
- HAZOP, HAZID, SIL study preparation.
- Utility calculation & checking.
- Hydraulic calculation & checking.
- Performing process simulations by HYSYS software.
- Prepare Process Description and Control Philosophy, Cause & Effect Chart.
- Coordinate with client to get and clarify information.
- Communicate and clarify with Vendor about quotation, schedule, and technical points.
- Site inspection, Commissioning.

Projects directly involved:

Deneast Engineering, Binh Duong, Vienam

Process Engineer

- Assist to Project Manager.
- Prepare Basic Engineering Design Data.
- Prepare H&M balance, Equipment list, Line list, Line sizing, Tank & Vessel design.
- Prepare BFD, PFD for utility system (Air compressor, Chiller, Water, N2, Oxygen).
- Pump calculation and checking.

P&G Binh Duong upgrading project

Process Engineer & Project Coordinator

Responsibility for the process (P&IDs, MEL, Datasheet) of several upgrading works of P&G Binh Duong. (Sundance Burst, Gucci Shachet, Chungdam local design scope, etc.)

Heineken Quang Nam - Waste water treatment plant

Process Engineer & Project Coordinator

- Assist to Project Manager.
- Process review and checking.
- HAZOP study preparation.

RMIT WWTP Upgrading

Process Engineer & Project Coordinator

- Assist to Project Manager.
- Pump calculation and checking.

Carlsberg P&ID as built

Process Engineer

- Assist to Project Manager.
- Site survey.
- P&ID preparation and checking.

Brenntag Solvent Mixing Plant – EPCM

Process Engineer

- Assist to Project Manager.
- Prepare Basic Engineering Design Data.
- Prepare H&M balance, Equipment list, Line list, Line sizing, Tank & Vessel design.

VPI – Boiler Pre-feasibility study

Process Engineer & Project Coordinator

- Assist to Project Manager.

- Prepare H&M balance, Equipment list, Line list, Line sizing, Tank & Vessel design.

Westlake Compounds – Value Engineering

Process Engineer & Project Coordinator

- Assist to Project Manager.
- Process review and checking.
- Value Engineering for preparing construction stage.

Onsemi B1T Ramp Up 2023

Process Engineer & Project Coordinator

- Assist to Project Manager.
- Review and check the requisition for Packages unit.
- Prepare Basic Engineering Design Data.
- Prepare H&M balance, Equipment list, Line list, Line sizing, Tank & Vessel design.
- Prepare BFD, PFD for utility system (Air compressor, Chiller, Water, N2, Oxygen).
- Prepare Process Datasheet (Heat Exchanger, Pump, Storage tank, Vent, Control valve…).
- Ducting calculation, fan calculation for exhaust system.
- Pump calculation and checking.
- Communicate and clarify with Vendor about quotation, schedule and technical points.

ADM Philipines - Dust Hazardous Classification

Process Engineer

- Assist to Project Manager.
- Plant wide Hazardous Area Classification.
- ATEX zoning.
- Equipment ATEX mark-up.

Engineering Service to CTS Benelux – Nederland projects

Process Engineer

- Assist to Project Manager.
- Process consultant for Front End Engineering Design.
- Performing process simulations by HYSYS software.
- Hydraulic calculation & checking.
- Prepare H&M balance, Equipment list, Line list, Line sizing, Tank & Vessel design.

PepsiCo Foods North – Detailed design

Process Engineer & Project Coordinator

- Assist to Project Manager.
- Review and check the requisition for Packages unit.
- Prepare Basic Engineering Design Data.

- Prepare H&M balance, Equipment list, Line list, Line sizing, Tank & Vessel design.
- Prepare BFD, PFD for utility system (Air compressor, Chiller, Water, N2, Oxygen, Cooling water).
- Pump calculation and checking.
- Prepare Process Datasheet (Heat Exchanger, Pump, Storage tank, Vent, Control valve…).
- Communicate and clarify with Vendor about quotation, schedule and technical points.

02/2020 – 04/2022 **Masan Tungsten LLC.**

https://masanhightechmaterials.com/

Process Engineer

Scope of work:

- Process optimization.
- Process calculation.
- Development project.
- Site survey.
- Pilot scale/plant trial.
- Commissioning.

Job description:

- Calculate mass balance and cost-saving for recycling off-spec products.
- Calculate surface area, design cooling coil for reducing the temperature of filter feed tank.
- Calculate mass balance of the plant by Excel model then evaluate chemical
- consumption and energy for each scenario of feed ore.
- Calculate and design specifications of agitator system for mixing tanks and trial new agitator for system reactor successfully.
- Pilot-scale and simulate process caustic displacement wash of the first filtration to save
- chemical consumption: caustic, acid sulfuric.
- Trial new filter cloths in the plant: increase service life of filter cloths then increase recovery of tungsten and help reduce the production cost.
- Improve the capacity of the grinding process, reduce grinding time from 10 hours to 5 hours.
- Develop SOP for multiple effect-evaporator sodium tungstate systems.
- Simulate system crystallizer for evaluating corrosion quality of material.
- Develop recipe for customer yellow tungsten oxides specification.
- Coordinate with effected parties to define and fix issues in the plant.
- Investigate existing equipment to consume flake caustic.

CURRICULUM VITAE

NGUYEN VAN CHIEN

09/2015 – 02/2020 **Green Environment Production and Trade Services Co., LTD.**

https://www.geco.vn/en.html

Chemical Engineer & Project Coordinator

Scope of work:

- Set up a plan for treatment industrial and domestics waste.
- Evaluate, control product quality after each production process.
- Design, calculate system model of production process.

Job description:

- Set up plan for treatment industrial and domestics waste.
- Test and analyze copper content in product of copper recycling from electronic circuit boards.
- Refine lubricating oil into high calorific value diesel fuel.
- Control and analyze the specifications of the fuels in the plant.
- Develop and set up technical lab by ISO 17025:2017.
- Treat acid residues from waste oil refining into fuel oils.
- Participate in the development of a system to recycle waste oil into diesel oils.
- Design humidifying system for ash products and separates and filters finished oil from waste rubber-type pyrolysis.
- Take part in building a furnace system that makes use of energy from sludge, heavy oil, and excess gas from waste rubber type pyrolysis.

Key skills

- Personal working
- Problem solving
- Goal setting/Planning
- Critical thinking
- Time management
- Data analysis
- Positivity
- Project management
- Team working

Certification

- Professional Project Management (PMP®), by Project Management Institute, issued 7/2025, validate 7/2028.
- Risk Assessment & Functional Safety: SIL-HAZOP by SETECH, 11/2022.

Computer Skills

- **Super user:** Internet, MS Office (Words, Excel, PowerPoint, etc.), MS Project, HYSYS.
- **User:** Auto Cad, SketchUp, Adobe, PipeFlow, ASHRAE Duct Fitting Database.

Languages

	Speaking	Reading	Writing
